What are School Grades?

School Grading is part of a state and federal statute that mandates accountability for all public schools. The Elementary and Secondary Education Act (ESEA) enacted in 1965, which was reauthorized in 2001 as No Child Left Behind (NCLB), requires schools to show annual improvement in mathematics and reading. In 2011, New Mexico lawmakers enacted additional requirements that schools demonstrate progress through a grading system similar to that applied to students, issuing an A through F letter grade to each school [22-2-1, 22-2-2, and 22-2E-1 to 22-2E-4] [6.19.8.1 NMAC–N, 12-15-11].

Which schools are graded?

Schools and districts under the jurisdiction of the Public Education Department (PED) must participate in school grading, including:

- •School districts; New Mexico has 89 districts.
- District schools; New Mexico has more than 800 district and locally-authorized charter schools
- Charter Schools, in 2012 New Mexico had 40 state-authorized charter schools

Non-PED schools are exempt from school grading, including private, home, and Bureau of Indian Education schools.

What does this District Report Card tell me?

This report provides a concise summary of the district and its schools. Specifically:

Student Demographics
District Summary
Accountability Indicators by Subgroup
Assessment Summaries for Grades 3-8 and 11
School Board Memeber Training
Teacher Quality
Parent Survey on Quality of Education
NAEP Statewide Summary for Grades 4 and 8

Definitions and Abbreviations

LEA: Local Educational Authority is a broad term that encompasses districts with multiple schools and independent state-authorized charter schools. Locally-authorized charter schools are reported with their parent district.

Asian: Asian or Pacific Islander Afr Am: African American ELL: English Language Learners

ED: Economically Disadvantaged as determined by eligibility for Free or Reduced Lunch; sometimes noted as "FRL"

SWD: Students with disabilities; does not include special education students who are gifted

Recent Arrival: ELL students new to the US who qualified for exemption from the reading assessment

High Poverty Schools: Schools with students most ED (top 25%) Low Poverty Schools: Schools with students least ED (bottom 25%)

SGTs: School Growth Targets, like predecessor AMOs, increase annually for monitoring subgroup performance and growth. Tables reflect whether the percent of students for the school meet the current year's target percentages.

Status refers to schools that are in some form of improvement that requires increased monitoring and educational enhancement. The three improvement statuses are

Priority Status (5% of schools)

Focus Status (additional 10% of schools)

Strategic Status (additional 10% of schools)

Reward schools are recognized as the top 5% in the state. To learn more about status consult the Technical Guide at:

http://webapp2.ped.state.nm.us/SchoolData/docs/1112/SchoolGrading

SGTs by Subgroup

Customized targets called School Growth Targets (SGTs) guide a school's path toward proficiency. These goals increase every year and challenge schools to identify student groups that might be struggling to keep up with their peers. Students who are not proficient but have made large enough gains to become proficient in the next 3 years are considered "on track" to proficiency and are included in the school's percentages. Percentages are available at: http://www.ped.state.nm.us/AssessmentAccountability/AcademicGrowth/NMSBA.html.

Proficiencies, Summary by Grade

Students are assessed in reading and mathematics in grades 3-8 and 10-11, and in science in grades 4, 8, and 11. The assessments, the Standards Based Assessment (SBA) and the NM Alternative Performance Assessment (NMAPA, for students with significant cognitive disabilities), were developed to measure grade-level standards that NM educators and the public determined are important for our students to master. Results include all students enrolled, regardless of full academic year (FAY) status. Groups with fewer than 10 students are not reported to meet confidentiality requirements. Percentages include tests that were not scorable due to an invalidation, so totals may not sum to 100%.

Budgeted Expenditures

Locally-authorized charter schools manage their budgets independently of their parent district. For detailed information please contact either the individual schools or the PED Budget and Finance Office for the budget analyst assigned to that school. These figures represent the district summary for non-charter schools.

Graduation - 4 Year Cohort of 2011

Graduation accountability is lagged by one year to allow seniors the summer of their final year to complete all requirements. These figures represent students who were expected to graduate on time by August 1, 2011. The cohort includes all students who were ever enrolled during the four years, including part-time students. Blanks indicate too few students to report.

National Assessment of Educational Progress Statewide Results

The National Assessment of Educational Progress (NAEP) is often called the "Nation's Report Card" because it allows the comparison of student achievement across states and for the nation as a whole. The sampling method does not allow for reporting results by district or by school. For further information please visit http://NCES.ED.Gov/NationsReportCard.

NAEP does not replace the New Mexico Standards Based Assessment (SBA) which annually measures student performance according to New Mexico curriculum standards. All students are required to take the SBA, whereas the NAEP selects representative samples of students and districts. Because not all subject areas or grade levels are tested every year, these statewide results are for the most recent year assessed in that subject area and grade.
