What are school grades?

School Grading is part of state and federal law that mandates accountability for all public schools. The Elementary and Secondary Education Act (ESEA) enacted in 1965 requires schools to show annual improvement in mathematics and reading. New Mexico statute specifies additional requirements that schools demonstrate progress through an A-F letter grade for each school. Individual school report cards can be found online at <http://aae.ped.state.nm.us/>.

What are School District Report Cards?

Each LEA under the jurisdiction of the Public Education Department (PED) annually receives a comprehensive report of their achievement, accountability, teacher qualifications, and post-secondary success. This report is compiled for 89 districts that include regular and locally authorized charter schools, and all state-authorized charter schools. Non-PED schools are exempt from both school grading and School District Report Cards and include private, home, and Bureau of Indian Education schools.

What is contained in this report?

This report provides a concise summary of the LEA and its schools:

Definitions and Abbreviations

LEA Local Educational Authority is a broad term that encompasses districts with multiple schools or independent state-authorized charter schools. Locally authorized charter schools are not LEAs and are reported with their parent district.

Subgroups

Asian: Asian or Pacific Islander

Afr Am: African American

Amer Indian: American Indian

Cauc: Caucasian

ELL: English Language Learners

ED: Economically Disadvantaged as determined by eligibility for Free or Reduced Price Lunch Program

SWD: Students with disabilities; does not include special education students who are gifted

Q1: The lowest performing 25% (one quarter) of students in reading or mathematics

Q3: The higher performing 75% (three quarters) of students in reading or mathematics

High/Low Poverty Schools Schools with students most economically disadvantaged (top 25%) and least disadvantaged (bottom 25%).

Recently Arrived These are ELL students new to U.S. schools who qualify for exemption from the reading assessment.

Accountability - School Grading and Status

Status refers to schools that are in some form of improvement that requires increased monitoring and educational enhancement. The improvement categories are

*** Priority Status (5% of schools that are lowest performing)

** Focus Status (additional 10% of schools that are low performing with large gaps between lower and higher performing groups)

* Strategic Status (additional 10% of schools that are low performing with large gaps between lower and higher performing groups)

^ Reward Status (the top 5% of schools in the state)

A school's status is footnoted next to its overall letter grade and, where blank, means the school is not in any status. Only schools receiving Title I funds are eligible, which in 2016 represented 654 schools.

Achievement - Proficiency Summaries by Grade

The assessments were developed to measure grade-level standards that New Mexico educators and the public determined are important for students to master. Results include all students enrolled within the LEA or school, regardless of whether for a full academic year or not. Students are assessed in reading and mathematics in grades 3-11 and in science in grades 4, 7, and 11. Note that proficiencies do not include the assessment for grades KN, 1 and 2.

National Assessment of Educational Progress Statewide Results

The National Assessment of Educational Progress (NAEP) is often called the "Nation's Report Card" because it allows the comparison of student achievement across states and for the nation as a whole. The sampling method does not allow for reporting results by district or by school. For further information please visit <http://NCES.ED.Gov/NationsReportCard>.

NAEP does not replace assessments that annually measure student performance according to New Mexico curriculum standards. All students are required to take the standards-based assessments, whereas the NAEP selects representative samples of students and districts. Because not all subject areas or grade levels are tested every year, these statewide results are for the most recent year assessed in that subject area and grade.
